

CRUZE SLIDELUB SERIES
SLIDEWAY LUBRICANT OIL

Product Definition

CRUZE SLIDELUB SERIES are slide-way oils which provide excellent lubrication and prevent stick-slip motion and noise in heavily loaded and vertical slide-ways. CRUZE SLIDELUB SERIES are formulated by blending high quality mineral base oil with exclusive additive technology.

Application/Usage

- horizontal and vertical slide-ways of all sorts of machining tools.
- may also be used instead of hydraulic oils in case they are recommended for applications where mixing of hydraulic oils and slide-way oils cause deterioration in oil performance or machining tools which has a single unit for hydraulic and slide-way lubrication.

Product Package

200 Lt - 20Lt - 4Lt - 1Lt.

Storage

Protect from direct sunlight and rain. Store in the original closed drums and in covered areas. Storage temperature must be between (+5)-(+40)°C.

Health and Safety

This product is unlikely to present any significant health or safety hazard when properly used in the recommended application. Used or waste product should not be allowed to contaminate soil or water. Used or waste product should be disposed of in accordance with local regulations. For further guidance on product Health and Safety refer to the appropriate Material Safety Data Sheet.
